*Below is the transcript/translation for the video:*

- How are you doing friends? Here we are with Marisa and we are also going to talk about the trends we have with the new styles for this season.
- The shampoo we are going to utilize today is the Dry Scalp Care.
- Ok, we are going to start doing the trendy style that we are going to show you.
- This one that we are going to do today is very simple, is a simple pony tail that will show mainly in the lower back of your hair, ok.
- We will start. Marissa has a hair, Marissa has a wonderful hair, a really healthy hair.
- Now what we are going to do, we are going to comb the hair back, to tie it on a pony tail in the lower back of your hair. And we are going to tie it with a rubber band to secure that the pony tail stays there.
- You are going to do it twice so it's secure...so it doesn't come off, ok?
- So, after this, keeping...grabbing certain kind of hair...you can roll around, right? Roll to cover the pony tail...very simple...with a piece of your hair...showing it like this, right?
- Very careful, and making sure it looks, very, but very, but very neat.
- We are going to talk about the seven benefits that Head & Shoulders has...it offers us this, this benefits that are so important...it helps us to fight dryness, irritation, itching, the excess of oil, and of course it is going to avoid dandruff production and it will give us a beautiful hair...
- Then, we will continue with our hairstyle... we are going to curl hair strands...with one of the curly irons...right? Only to give it a spin, a soft wave...
- This is very simple, you can do this at home...that's...that's why I'm showing you this kind of hairstyle, because they are simple for you to do...and they are beautiful, and very elegant....
- We are going to spray again.... a very fine hair spray...and you mess it up as if you are going to do something really fun...but at the same time...original.
- And this is the result for our pony tail....you can also do this up here, but this is what we are going to talk about...on the lower back of your hair... I love it for this winter...

- ...Respect your scalp because it will give you a healthy hair, beautiful and shiny and silky... until next time my friends.
